NUMBER 167.

## BRAKER HURT IN STRATHCONA

A. F. Thompson, While Coupling Cars In C. & E. Yards, Was Crushed Between The Cars.

Strathcona, July 18.—A shocking accident and one which may prove fatal occurred in the C. P. R. yards here this morning between the hours of eight and nine o'clock. While coupling two freight cars, A. F. Thompson, a brakeman, was caught between the cars, and his head terribly crushed. No one witnessed the accident, and it was some moments before the trainmen were aware of what had happened. The man was unconscious when picked up. Dr. Archibald was sent for, and the unfortunate man was removed to the town hospital. There are no chances for his recovery.

Very little is known here of Thompson. He is apparently about 38 years of age, and has been in town only a short time. He originally came from Toronto. It is not known whether he has a family.

Strathcona, July 18.—Thompson, the C.P.R. brakeman who was injured yesterday morning, died last evening at 7:15 without regaining consciousness. His friends in the east are being communicated with.

## NOWEL SUICIDE

(Special to the Bulletin)  
Minneapolis, July 18.—Cecil Vanwick, aged 30, a salesman, after a quarrel with his wife Tuesday, when she left him, lay on top of a gas stove in his flat and turned on the burner, asphyxiating himself. He was found dead this morning.

## BANK PRESIDENT SUICIDES

(Special to the Bulletin)  
DraMoUines, July 18.—Martin J. Flynn, president of the People's Savings Bank, committed suicide today by shooting. Despondency due to ill health is the cause. He was sixty years old.

## CROP REPORTS

(Special to the Bulletin)  
Sanville, Alta., July 18.—Crops of all kinds are doing fine and the weather is most favorable. A shower occurred last evening. Wheat is well headed out and harvest will be early.

Lloydminster, July 18.—Crops here are advancing splendidly. The weather is most favorable and a large yield is in prospect.

## SENATOR TALBOT ON THE SESSION

Opposition Attacks Proved Futile. Foster's Whine For His Pension—Senate Reform

Hon. Senator Talbot was in the city yesterday on his return from Ottawa. Speaking of the session he said that it would not be satisfactory for the government. He said a dead set was made on the Minister of the Interior and the administration of affairs in the West but the opposition found more than a match in Hon. Frank Oliver, who emerged from the discussion stronger than ever with his colleagues and supporters in the House of Commons. The opposition attacks all pattered out. Mr. Ame's exhibition of what he didn't know about the West was a sorry spectacle.

"Never did the opposition show greater weakness than this session," said the senator. "They instituted a campaign of fault-finding and applied their whole energies to smelling out scandals that wouldn't smell. If they have any policy for the government of the country they concealed it so carefully no one could discover it, and Mr. Foster's pitiful wail for his pension, which he hadn't the manliness to support while it was being criticized, was a fitting conclusion to a session which has done more to prove the weakness of the opposition than any yet held."

Mr. Talbot says that Senate reform is being seriously considered by the government and some plan may soon be evolved. He expressed himself as willing to favor any scheme that will make the second chamber more representative and more useful.

The senator never looked better and says he feels fit for haying. He left yesterday for Lacome and those who see him a few weeks later with his coat and vest off in the harvest field will get a glimpse of how one of the best representatives of the West ever had spends his "holidays."

TODD STILL MISSING.

(Special to the Bulletin)  
Brandon, Man., July 18.—A rumor said to have emanated from here that H. W. Todd, wanted in Winnipeg in connection with the death of Georgia Biron, was in hiding in this district is foundationless. The police have not the slightest suspicion that he is in this vicinity. There is a rumor current, however, that Todd on the afternoon of July 10 hired his brother, living near Griswold, to have the Imperial Limited stopped at that point but the brother did not reach the station until after the train had passed.

WILL HURRY UP THE C.P.R.

(Special to the Bulletin)  
Winnipeg, July 18.—Senator T. O. Davis, of Prince Albert, is in the city on his way home from the federal capital and will be here for a couple of days. Senator Davis states that the purchase of the Regina and Long Lake railway by the Canadian Northern will result in the immediate construction of the C.P.R. Yorkton branch to Prince Albert as the C.P.R. will want to retain a share of the traffic of the district.

## Prizes Raging

in Value From

\$6.00 to  
\$500.00 each

## TEXAS HAS AN EARTHQUAKE

Town Destroyed But No Loss Of Life Reported

El Paso, Texas, July 13.—Earthquake shocks numbering between fifty and sixty have practically made ruin of the town of Socorro, 160 miles north of this place. The quakes were continuous from Monday until this morning. No serious loss of life is reported, but the property destroyed is very great.

There is a crater of an extinct volcano eight miles from Socorro and the inhabitants think this volcano has something to do with the shocks. The water in the hot springs at Socorro increased over ten degrees in temperature, and this furnishes new evidence of an internal upheaval, and that the earth has been disturbed at great depths in the immediate vicinity of the town. The National Railroad is sending trains into town to take the people to safety. Huge boulders were rolled on the track from the mountain sides, and the trains were delayed thereby.

CLEARING HOUSE RETURNS.

The returns from the Edmonton clearing house for the third week, ending today, July 19, show a record of \$1,930,274.08.

WINNipeg TERMINAL SETTLED.

(Special to the Bulletin)  
Ottawa, July 18.—Owing to the securities which have been issued upon the Canadian Northern new terminal facilities in Winnipeg, it is impossible for the National Transcontinental Railway commission to acquire a satisfactory title for this property which it is desired to utilize for the Grand Trunk Pacific. An agreement has accordingly been reached, whereby the Winnipeg terminals will be owned jointly by the Government and by the Canadian Northern and will be used jointly by the latter and by the new transcontinental system.

LUMBERMEN CONVENE.

(Special to the Bulletin)  
Prince Albert, Sask., July 18.—The spruce lumber manufacturers of the West met in convention here today. The object of the meeting was to arrange to have all mills grade lumber alike and to have a uniform cut. These matters were discussed but no decision was reached.

SOCIALIST PROPAGANDA.

(Special to the Bulletin)  
London, July 18.—Socialists and trade unionists assert that Kehr Hardie's proposal adopted at the session of the socialists interparliamentary conference of fusing this organization with the labor unions of the world, brings into being a political force destined to wrest governmental control from the hands of existing parties in every country where it is let loose. Those in attendance include nearly all the famous European socialists. The convention today adopted a resolution providing that whenever international danger threatened, both the committee and the international socialist bureau will meet simultaneously with view to urging measures for peace.

And the cost to them will be nil. You spend 25c for Soap manufactured by the Standard Soap Co., either toilet or laundry, and for which you get the best value in soap obtainable. In addition to this you have as good an opportunity as anyone to win a piano valued at \$500.00 or any one of the other fifteen prizes.

## NEW OFFICIALS APPOINTED

Alberta Gazette Contains Notice Of New Appointments

The following Provincial appointments are gazetted today:

Commissioners for taking affidavits.

Will Scott Money, of Lacome; Edward Withishaw, of Edmonton; Edward Hector Rouleau, of Rouleau.

District surveyor and engineer.

Archibald William Ponton, D.L.S., with headquarters at Vegreville.

Notary public—Charles Arnold Grant, of Edmonton.

Official auditor—George A. Wells, of Whitehouse.

License commissioner—Sylvester W. Findlater, of Lacome, for License District, No. 12.

Fire inspector—Robert Jas. Christie, of Pincher Creek.

Issuer of marriage licenses—George Farmer, of Claresholm.

Stock inspector—Benjamin Phillips, of Stettler.

Game wardens—E. W. Barrett, of Liberal; Robert June, of Namao; Martin L. Miller, of Strathcona.

Fire guardian—Nels A. Sanders, of Buford.

weed inspectors—J. T. Brown, of Cardston; James Cowell, of Mountain View; H. E. McKay, of Nanton; Robert M. Somersett, of Vermilion; T. J. Cunningham of Vegreville.

IMPORTING COAL.

The city has contracted for the delivery of six carloads of Bankhead coal. It is asserted by the commissioners that this action was taken to relieve the stringency of the situation last week when a scarcity of coal occurred at the power house.

LADY CURZON DEAD.

(Special to the Bulletin)  
London, July 13.—Lady Curzon is dead. She had been ill for ten days, though she never really recovered from the illness which she suffered some years ago. Lady Curzon's husband is Lord Curzon of Kedleston, who just completed a term as viceroy of India and was succeeded by Lord Minto. Her brother is Joseph Letter the Chicago wheat plunger.

WILL SEND THEM BACK.

Chicago, July 18.—Judge Bethel heard this afternoon the story of Truman Hunt and the band of Igorrotes from the Philippines now on exhibition here. Hunt argued against the charges of the war department and said that his protégés preferred American dollars to aboriginal lire. After hearing the arguments the judge sharply denounced the practice of exhibiting human beings for the purposes described and ordered that should be sent back at the expense of the government.

The embezzlement charges will be looked into by a commissioner. Hunt brought to this country a band of fifty odd Igorrotes from the Philippines and after using them for exhibition purposes, all over the United States and Canada, is alleged to have abandoned them to shift for themselves. Acting under instructions from the war department, Hunt was formally charged by the authorities with withholding from the "dog eaters" for fifteen months their salaries, which he agreed to pay in a formal contract and also with embezzling from his charges money they made by selling souvenirs. Hunt was at one time governor of the Igorrote district.

## CANADIANS ARE DISAPPOINTED

But Hope King May Yet Be Able To Visit Canada

(Special to the Bulletin)

London, July 13.—Lord Strathcona, Sir Sanford Fleming and Hon. Mr. Bellcourt voiced the disappointment of the Canadian people at the inability of the King to visit Canada.

Archibald William Ponton, D.L.S., with headquarters at Vegreville.

Notary public—Charles Arnold Grant, of Edmonton.

Official auditor—George A. Wells, of Whitehouse.

License commissioner—Sylvester W. Findlater, of Lacome, for License District, No. 12.

Fire inspector—Robert Jas. Christie, of Pincher Creek.

Issuer of marriage licenses—George Farmer, of Claresholm.

Stock inspector—Benjamin Phillips, of Stettler.

Game wardens—E. W. Barrett, of Liberal; Robert June, of Namao; Martin L. Miller, of Strathcona.

Fire guardian—Nels A. Sanders, of Buford.

weed inspectors—J. T. Brown, of Cardston; James Cowell, of Mountain View; H. E. McKay, of Nanton; Robert M. Somersett, of Vermilion; T. J. Cunningham of Vegreville.

LADY CURZON DEAD.

(Special to the Bulletin)

Ottawa, July 18.—Hon. Mr. Templeman today assumed control of the geological department in addition to his duties as Minister of Inland Revenue, an order-in-council having been passed transferring that department to him.

It was understood when Mr. Templeman was given the Inland Revenue department in February that he would also be given control of the mining department; by having in his hands the administration of the geological survey and the mining ranch of the Intercolonial Department for the time that will intervene before next session of Parliament, Mr. Templeman will be in a position to advise in respect to the organization of a Department of Mines with a Minister of Mines at the head for the creation of which legislation will be necessary. It is understood an act for this purpose will be passed at next session.

## BAD FLOODS IN JAPAN

Loss Of Life And Enormous Destruction Of Property

Tokio, July 18.—Devastating floods are reported from Central Japan and all railway service is interrupted. The Kofu district is converted into a huge lake and damage amounting to several million yen has been done. Thousands have taken refuge in temples and theatres and on roofs of houses. It is feared that the death list will be appalling as 4,000 houses are submerged. At the Matsumoto copper mines, all work is suspended and the workings are under several feet of water. The latest reports place the death list at a thousand, but communications are interrupted. It is greatly feared, however, that this figure will be multiplied enormously when particulars are received. The Government is taking prompt action to relieve and rescue those still in peril.

TEMPLEMAN TAKES OVER GEOLOGICAL DEPARTMENT

(Special to the Bulletin)

Ottawa, July 18.—Hon. Mr. Templeman today assumed control of the geological department in addition to his duties as Minister of Inland Revenue, an order-in-council having been passed transferring that department to him.

It was understood when Mr. Templeman was given the Inland Revenue department in February that he would also be given control of the mining department; by having in his hands the administration of the geological survey and the mining ranch of the Intercolonial Department for the time that will intervene before next session of Parliament, Mr. Templeman will be in a position to advise in respect to the organization of a Department of Mines with a Minister of Mines at the head for the creation of which legislation will be necessary. It is understood an act for this purpose will be passed at next session.

## CITY NEWS

### CELEBRATION FOR LABOR DAY

At a meeting of the Edmonton Trades and Labor Council held recently it was decided to hold a grand celebration on Labor Day, Sept. 3rd. The council are leasing the grounds of the Exhibition Association for the day, and intend putting on a good program of athletic sports for which good prizes will be given, as the building trades are in a flourishing condition. No pains will be spared to make the day a success. The program will be announced later.

### WORK COMMENCED

Yesterday morning the first sod was turned at the old nuisance ground in the laying of the new sewerage system for the city. The work was commenced at the point where the sewer will empty into Rat Creek, and the digging of the trenches for the trunk sewer is now progressing rapidly. The trunk sewer will be laid from the nuisance ground to First street, thence along the route described in the plan prepared by the city engineers.

To carry on the work of trenching, the city has purchased a fine large Carson trenching machine, the first to be used in the province. The beauty of this machine is that the work of trenching and refilling can be carried on simultaneously. The machine handles six iron buckets, each of which has a capacity of five feet of earth. The buckets are suspended by chains, and are lowered into the trench to be filled. When filled, the buckets are hoisted and run back along rails to the rear of the trench where the sewer has already been laid. In this manner the work of laying the sewer is carried on in double-quick time. The new machine is not yet in commission, having just arrived. An expert from Boston is expected in a day or two to put the machine in running order, and by the end of the week it will be in full swing. In the meantime the trenching is being done by teams and scrapers.

### SIMILAR FIRE LAST NIGHT.

Fire broke out about twelve o'clock last night amongst the hay in the loft of Ross Bros.' stable on Elizabeth street. Constable Howey, who was near the stable at the time, climbed into the loft and threw the burning hay into the lane. The fire brigade was called, but its services were not required, the blaze being out when they arrived.

ARCHDALE WILSON  
HAMILTON, ONT.

TENDERS FOR THE ERECTION OF NORMAL SCHOOL BUILDING, CALGARY, ALBERTA.

Sealed tenders addressed to the Deputy Minister of Public Works, Edmonton, Alberta, and endorsed "Tenders for Normal School Building, Calgary" will be received up to 12:00 o'clock noon, July 21st, for the supplying of all materials for the erection of Normal School Building, in accordance with plans and specifications on view in the Department of Public Works, Edmonton, and at the office of the Inspector of Public Works, Armstrong Block, Calgary. The work may be tendered for separately or in pairs, or for a trade engineer, plumber, fitter, or mason, or for ventilation, tenders for which will be called later. Each tender must be accompanied by an accepted cheque payable to the Minister of Public Works, for the amount of 5 per cent of tender. Cheque of the successful bidder, if any, will be returned with the contract. Tenders will be rejected if the tenders are not executed and the work completed. The names of unsuccessful bidders will be promptly returned. The right is reserved to reject any or all bids or valve any defects.

JOHN STOCKS,  
Deputy Minister of Public Works  
Dated 4<sup>th</sup> day of July, 1906  
by 158-1877

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until Thursday, August 16, 1906, inclusively, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honorable the Minister of Public Works, equal to ten per cent of amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,  
FRED. GELINAS,  
Secretary.  
Department of Public Works,  
Ottawa, July 5, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

## CORRESPONDENCE INVITED

Edmonton Branch : H. A. GRAY, Agent.

## Western Items

**High River Times:** There is no better indication of the prosperity of this district than the notice contained elsewhere of the decision of the members of the Presbyterian church to erect an eight thousand dollar church. The present place of worship was entirely too small to accommodate the congregation, hence the decision to build a more commodious and pretentious edifice.

**Nanton News:** During the thunder storm last Sunday afternoon J. F. Lorette's house was struck by lightning; but fortunately none of the family were hurt. The current struck the chimney and run down, damaging the building to some extent. The repairs, including a new chimney will cost about \$100. None of the family felt the current strong enough to term it an electric shock, but it was certainly a narrow escape for all of them.

**Blairmore Times:** A Portland Cement works with a capacity for turning out 600 barrels of cement daily is to be erected at once between Frank and Blairmore. The cost of one of these mammoth works is to be settled upon the arrival of the company's expert from New York next week, although it has already been decided that they are to be placed between Frank and Blairmore, the exact location being left to the expert. This company has been incorporated with a capital of \$10,000.

**Clareholm Review:** Numerous complaints have been received that the "Stoney" Indians are killing game out of season in the foothills on our way to Bow Valley under the pretence of hunting for wolves. The settlers to the west of us are circulating a petition to the Government to take effect and if what they report is true, the slaughter has been very great and our large game consequently will be very scarce for some time to come. It is proposed to have a large number of mountain lions trapped and ruthlessly slaughtered then, leaving the carcasses behind. Young deer have also fallen a victim to their variance for game, and unless immediate action is taken to prevent further slaughter our western hills will be completely robbed of its large game.

**Evening Chas. G. Nienhuis received a telegram from the Winnipeg chief of police, stating that Georgina Birion had been found dead in the Imperial Hotel, and that she had apparently been pelted. Miss Birion and Miss Florence Davis left for Winnipeg on Thursday evening. Miss Birion's many friends in Maple Creek will be sorry to learn of her untimely end.**

**Wetaskiwin Times:** Messrs. Berney, Murphy, Mr. Birrell, Mr. Hayes and Morris of the Calgary team have joined the Cubans. The former has settled a situation in the city, while the latter has taken up a homestead east of Wetaskiwin. This makes the hardest proposition in Alberta to defeat.

**Edmonton Agency:**—Bank of Montreal Building.

MORE COMPLIMENTS FOR ED-  
MONTON

The Lethbridge News is much exercised over the appropriations for public works in the vicinity of Edmonton and tries to argue that the Federal and Provincial Governments are unduly favoring this city. The News says it part:

"The Provincial Government is willing to aid a high level traffic bridge at Edmonton, where it is much less needed than here. It is proceeding with public buildings there to cost at least \$250,000. It has given \$20,000 for a deer park in that vicinity. In addition to this the Dominion Government has voted \$200,000 for a post office building there."

"Taking the fence alone and leaving out the high level traffic bridge, about \$50,000 of the people's money will be spent for the benefit of Edmonton on needlessly costly structures."

The News is particularly unfortunate in its choice of examples of unnecessary patronage to Edmonton. The public buildings to be erected in Edmonton by the Provincial Government are provincial buildings and will be erected in Edmonton not because the Government favors or does not favor erecting them here but because such buildings must be erected at the provincial capital. The proper location for legislative buildings is where the legislature meet. To accuse a Government of displaying favoritism for erecting capital buildings at the capital is a species of argument about-worthiness a journal which considers \$250,000 provincial buildings as "needlessly costly structures".

The "deer park" in which the News is interested is quite as much a provincial concern as the parliament buildings. It is located in a part of the country admirably adapted for the purpose and in the particular part of the country in which alone the elk can be procured to stock the park. The area has been set aside and is to be fenced not to create a deer park, but to preserve the only herd of elk remaining in the province. That the country in which the herd is found happens to be comparatively near Edmonton will scarcely be charged to the partisanship of the Government except by the journal which considers the preservation of the herd a "needlessly costly" undertaking.

The appropriation of \$200,000 for a post office for a city whose geographical location will require for its postal facilities second in the west only to those of the city of Winnipeg can surely not be considered a "needlessly costly structure." That it is not considered so by the local political friends of the Lethbridge News is proven by the fact that their newspaper organ is belittling the appropriation as an excuse for reviling the Minister of the Interior.

MINISTERIAL STIPENDS  
Ottawa Evening Journal—"Rev. J. A. Shaw, Anglican minister at Fenagleave in the Ottawa diocese has notified the bishop of the diocese that he has decided to retire from the priesthood because he cannot support his family fairly on \$800 a year."

"We congratulate Mr. Shaw. He has been getting more money than some clergymen. But he has not been getting half what any clergymen should."

"It is a disgrace to the members of any Christian denomination that any of their clergy should lack means to maintain a comfortable household, and to do justice to the physical and intellectual needs of a family in so responsible a position."

"There never was a time when Christian ministers were, on the whole, poorly paid. Of late years, the cost of living has increased out of all proportion to the increase in the scale of ministerial stipends, and it is high time that a new idea of this question took hold of the protestant congregations of all denominations."

Commenting on the same incident the Ottawa Free Press says:—"Sixteen years as a minister and then forced to give up the work because of insufficient stipend? We question if in any commercial calling, even where educational qualifications are scarcely essential, a case can be found where an individual after sixteen years of service has insufficient salary with which to support himself and those dependent upon him."

## California Recovering

The California Promotion Committee have issued the following circular:

"Although California, through its commercial metropolis was visited two and a half months ago by an overwhelming disaster, commercial and industrial conditions throughout the State are now unprecedented in the history of recuperation.

"Banks report ample funds and good business, and financial concerns give indisputable evidence of their soundness. The clearings of San Francisco for the month amounted to \$121,677,692.77 as against \$134,836,862.88 for the same period in 1905, showing a decrease of but about 9 per cent, still keeping in the position of the seventh commercial city of the nation."

"Delay in insurance adjustments has retarded reconstruction. Advices from employees of skilled labor indicate that in the building trades alone nearly 25,000 men are employed at reconstruction work. Between 2,000 and 3,000 temporary structures have been erected for the use of commercial houses to enable them to carry on business until permanent buildings can be established. Among the temporary structures is California Building, in Union Square, the new home of The California Promotion Committee. During the month 656 building permits were issued by the board of public works."

"Railroads entering the state report that the regular summer tide of travel is setting westward with little abatement of volume. The tonnage of foreign vessels entering San Francisco port during June amounted to 60,138. Industrial conditions throughout the State are good, with strong demand for labor. Reports show that with the exception of apricots there will be an increased yield of all crops with good demand. Fruit farms in all parts of the State have furnished labor to thousands of men and women rendered homeless by the fire and are still in need of more."

WILL INVESTIGATE WHEAT IN-  
SPECTION

(Special to the Bulletin)  
Ottawa July 18.—A commission appointed by the Government to investigate and report upon wheat inspection will consist of John Miller, Saskatchewan; L. McNair, Manitoba; T. Goldie, Ontario; with J. R. Boyle of Alberta, as secretary.

## Try A Bulletin Want Ad.

We don't ask you to buy

## Westmount

Because it is near the G.T.P. yards etc. It may be that there are some people who are fond enough of coal dust and smoke, the rumbling of trains, the tooting of whistles and the ringing of bells for twenty-four hours every day to want to live somewhere within half a mile of what are bound to be very busy railway yards but we believe there are some people who would just as soon live a little farther away.

We ask you to buy

## Westmount

Because it isn't near the G.T.P. or any other yards. Just put on your thinking cap, size up the situation and arrange to buy where the choice residential property can be had. The G.T.P. yards are going to prevent the city growing Northward. As it is bound to grow it must grow East and West. WESTMOUNT is undoubtedly the finest suburban property in the West End. Just outside the city limits on the St. Albert road--between the West end city park and the city.

Large lots \$100 up, 1-3 cash, balance 1 and 2 years, 7 per cent.

These lots will look cheap in a short time with \$100 added to the present prices. YOUR OPPORTUNITY IS NOW. DON'T MISS IT.

We will drive you out. See your regular agent or inquire of the owners.

## The GREAT WEST LAND CO., Limited

## Modern Methods of Criminal Treatment

BY W. P. ARCHIBALD, DOMINION PAROLE OFFICER.

It has been said and very unjustly too, that our penitentiaries are universities of crime, whose pupils are the enemies of society, and that the criminal class is everywhere made up of men who have received their education in custody. I do not believe that such a statement can be true. If it is the more quickly our penal institutions are abolished the better it will be for society. Whatever may have been the conditions of the penal institutions in former years modern institutions do not make criminals. On the other hand they are doing much to unmake them.

A large proportion of the prisoners annually discharged from our penitentiaries are far better equipped for gaining an honest living under fair treatment than when they were received. I believe as a rule their physical, their mental, and moral conditions are greatly improved through their detention and subsequent treatments. Habits of industry are formed through their being employed at industrial pursuits, discipline is taught which gives men the stronger sense of self control and self-government. There is no cruelty in a strong or well-organized discipline, in fact, cruelty is more often practised where discipline is lax, and an unknown quality. But even should these conditions exist in some of the Canadian prisons the man generally goes out better than when received.

People today are too far away from the needs and sorrows of humanity to undertake their betterment, or the elevation of social conditions. A parish priest of austerity, climbed up in a high church steeple. To hear God so high might have his word down to the people. And in sermon script, he daily wrote Which he thought was sent from heaven.

And he dropped this down on the people's heads,

Two times, one day in seven. In his age God said: "Come down and die."

And he called out from the sleep, "Where art thou, Lord?" and the Lord replied,

"Down here among the people."

The man we call a criminal cannot be defined at one glance. He defies any single angle vision. He cannot be estimated from one viewpoint far or near. The police see him as a disturber of the peace, and one whom they might legitimately exploit. The judge sees him as the violator of law and order, and a subject for all the terror which the law calls for. The warden of a penal of crime, to him the fact of his detention and presence in a penitentiary is grim punishment itself, and he proceeds to carry out the instructions of "rule and regulation." Society sees him as a menace to its quiet and good order, and whether the violator of law is in cell or in dungeon, is satisfied to know itself so well rid of this menace. The criminal will never cease to be a profound study until we have clearly defined the abuses which have defected from the straight line of accepted conduct to one of such acute moral obliquity. Within our penitentiaries today we have about 1,300 souls. Until the causes which have produced such anti-social results in these units of society are discovered the criminal man will be the study of the philanthropist and the political economist from whatever view point it may be prosecuted. To seek for the fatal causes which have produced criminals in heart, and which are still producing them is one of the quest of the Hey Grail of our century. There are hopeful indications that the quest is neither vain nor delusive.

Nothing is certain we have greatly advanced our methods of dealing with the criminal of late years. We cannot corral all men into classes, or put the brand of disfavor on the masses. The time is not long since the inebriate was declared the incarnation of all perversity and the embodiment of an evil genius. Since it was written that he had no inheritance in the Kingdom of God, it has been a contention among thousands whether he should have allotted to him any inheritance in the kingdom of men. We have learned a more righteous way in dealing with the inebriate. He has been taken in hand by those more kindly hands who search for causes as well as the effect and the inebriate treatment will undergo a radical change during the next decade of criminal treatment and research. One thing that is patent to almost everybody today is embodied in the fact that inebriety is not as a rule, a vicious and criminal perversity in men. Perhaps some predisposing cause outside of a depraved heart where we have so continuously located it, may be held to answer for the masterful drink impulse.

The discovery that inebriety may be the symptom of a pathological condition of the brain, and of the nerve centres, and that the drink habit is but physical demand for relief—the wild

and the maniac cry of the inner man—throws a more lurid light over the way which the unfortunate drunkard has stumbled in his fate for a thousand years. The man in the midst of the drink storm is not found a moral delinquent only—he is a physical and mental delinquent. He is an anti-maniac. It is not a jail that is demanded for him, it is the retreat of an asylum. The man is not only sick, but impotent. It is not a prison that is demanded, but a catholicon within the ward of a hospital. When once the inebriate is safe out of the hands of the jailer, and safe within the hands of the medical practitioner, these predisposing causes in the disordered nerve centres, will receive an intelligent analysis and treatment. Everything that appeals to the soul and spirit as well as to the reparation of tissue has its place in the medical armamentarium. Already in Canada there is a move in the right direction and the inebriate in Montreal and Toronto is receiving medical attention as special cases. This is the dawn of a better day for this unfortunate man. Theology and pathology are joined together in quest of the source of the inebriate's degeneracy, the one is in no danger of interfering with the other, both have their province of usefulness in the betterment of men.

To the broad-minded and thoughtful, the criminal man appeals, as an accident in great pain. He is just so much the harmful and vicious despoiler as he is himself harmed and despoiled. He is out of place in the vast aggregation; and but for him as an agreeing and accordant aggressor, he is an energy misdirected, and because misdirected, not only a wasted energy, but one of danger. To remove the menace to society this energy must be turned into another channel, a channel of usefulness and activity. The criminal man or woman is abnormal and out of adjustment, but this does not signify he is therefore unadaptable. He must be brought to the right place and adjusted. The problem is, how far can their readjustment be made without sacrificing the existing relations between the doors of the law, and the law breakers? One of the highest English authorities I have read on this question states: "It is on the assumption that punishment will have the effect of deterring crime that its infliction can alone be justified. It may be well doubted, whether in more recent times, the humans and praiseworthy desire to restore and reform the fallen criminal, may not have the effect of producing too great a tendency to forget that the protection of society should be the first consideration of the lawgiver."

The subordination of the unit to the imperious demands of the many, is in result generally the cruel use of a force trusted with the many, not for the suppression of the unit, but for the protection of the unit. Society, to justify its position in the case of the man in prison, speaks today of the "congenital criminal"; of the "born thief"; of the "hereditary drunkard"; until it is almost the popular belief, that all thieves are born thieves, and all drunkards are born drunkards. What possible interest can you or I have in a born criminal? If such they are he is an alien to society and out of harmony with humanity. If this is true, he is simply a natal defect and there is no remedy for such.

Let us get as far away as possible from the thought that men are born thieves, or liars, or murderers, and that some men succeed to the worst estate of the drunkard, which they cannot decline. The criminal is not born, he is something made and the modern juggernaut, society, which so heartlessly pronounces men degenerates, and passes them by with a wave of the hand, is too responsible for the existing causes of human deterioration to open its mouth in condemnation.

In conclusion, if we are obliged to admit natal defects in men, so we are obliged to admit natal calamities. But natal defects may be destroyed or eradicated, and so indeed may natal excellencies, and we admit men may be born with criminal instincts, but these criminal instincts can be destroyed in the child. They have no such root or fiber that they reach from "the cradle to the grave." Men may be born with the instincts of anguish, but neither are those angelic instincts of such root or fibre so strong in a man as to destroy extinction.

These social conditions which are competent to uproot the vicious instincts of a child are also competent to firmly root the disposition and the instincts which are not in character vicious, but full of virtue.

Since theory and pathology have united in the discovery of the genesis of crime, it is found that there is nothing in any man, natal or acquired, which makes him a responsible anti-social unit, or in which one or the other, or perhaps both of these forces, may not be minimized or wholly destroyed.

We must accept the criminal as he is now revealed to us in the search-light which science and religion turn upon him. He cannot be dismissed as an anthropological monster, he is one of us; he belongs to us; he must be treated as a part of the social fabric of life, and as a social phenomenon. He must be helped over the chasm which he has dug with his own hands. The voice of God may fall into a faint whisper in the human soul, but it never dies away into utter silence. The man whose soul may prove his sepulchre, has his past, his ruined, broken past, full of wasted opportunities, of fruitless efforts, of unrequited ambitions. He is a man to feel all these things and his soul cries out for the touch of the true and the good.

No man is altogether bad, no one goes so far in wrongdoing but that he can retract his steps.

An artist once took the face of a seraph and by malicious lines put into it here and there changed the seraph's face to that of an evil genius. The order with us must be reversed. We must take the face marked by its evil passion and wrong-doing, and, taking out the sinister lines wrought by the evil, make it the face of a seraph. There is this divine spark in every man. There is a way back to the far and the good beginning, however devious it may be, or however shadowy its numerous windings.

### NEWS FROM THE LANDING.

Athabasca Landing, July 16.—The ss. Midnight Sun left the Landing on Saturday for Lesser Slave River having on board about fifteen passengers. She also carried forty tons of freight for Revillon Bros., Ltd., Lesser Slave Lake. She returned this afternoon having made the round trip in about fifty hours, notwithstanding having to contend with a very strong current going upstream. The excursionists expressed themselves as highly delighted with their outing, having enjoyed the best of good weather.

Mr. James K. Cornwall started out this morning for Great Slave Lake in a canoe accompanied by Mr. McBeth from Prince Albert, who is going as far as Fond du Lac to take the census of that outlying portion of the Province of Saskatchewan.

The crops around the Landing are in splendid condition. Wheat and oats are in full flower and there is the promise of a very heavy crop. There is not much wheat sown in this locality yet there being only two or three experimental patches but the results have already far exceeded the expectations. Potatoes are a strong crop here the soil seeming to be specially adapted for the production of this crop.

### ALBERTA SUGAR

The Knight Sugar Co. of Raymond, have issued the following circular advocating the use of Alberta sugar by Alberta people:

"Quality—is equal to the best cane sugar in every respect."

"Sugar is sugar—No chemist can tell by analysis any difference whatever in pure sugar whether manufactured from cane or beets."

"Sugar is our largest importation and we should have interest enough in our province to patronize a home industry which means the retention of large sums of money for circulation in the province that would otherwise be spent out for sugar."

"Beet sugar is made from beets grown on our own soil by our own labor. Cane sugar is made from cane grown by foreigners in foreign countries and simply refined in Canada."

"Growing and manufacturing beet sugar at home means about \$70 per ton to Canadian labor while the labor in Canada on cane sugar means \$5 per ton."

"The home product helps every person in Alberta directly or indirectly. The success of the best sugar industry in Alberta means for us not only increased land values, but the creating of wealth at least ten times greater than wheat from the same area of land and also competition in sugar prices."

### THE WORLD'S WHEAT CROP

"The world's wheat crop this year will be at least from 260,000,000 to 280,000,000 bushels less than last year," was the estimate made yesterday by R. R. Dobell, manager of the foreign department of the Ogilvie Flour Mills company, Limited, who has just returned from a two month's trip abroad in the interests of his company, says the Montreal Gazette.

Referring to European crop conditions, Mr. Dobell stated that they showed very mixed prospects. While several important countries would have better yields than last year, such large producers as Russia and Roumania would show very much reduced crops, comparing them with last year. India was estimated as likely to ship only 40,000,000 bushels of wheat or about half her last year's export figures. As India's wheat export forms a large proportion of Great Britain's mill supply, the shortage will be felt severely, consequently a liberal quantity will have to be garnered elsewhere in order to make up the deficiency.

"With respect to Russia," added Mr. Dobell, "the reports, as in natural with every country, are varied. While in Britain I saw reports from the Volga districts, saying the seed had failed to germinate, which foreshadowed that suffering and famine in this section will be rampant. In southwestern Russia harvesting is reported to be progressing under favorable conditions, and the prospects point to good crops."

While ridiculed by many, he stated that the belief, however, was entertained by conservative people, that the possibility existed of the Russian government prohibiting the export of wheat, especially if the sufferings from famine reached an acute stage. In any case the crops in the southeast, east and centre of Russia would show a very serious falling off from those of recent years. In Roumania the crop is estimated at fully 40 per cent under that of last year.

It was therefore quite evident that America would be more the dictator of prices than has been the case in most recent years.

Germany, Mr. Dobell proceeded to say, would likely garner an excellent crop, and considerably in excess of last year, the production having received an impetus by increased duties levied to protect the agricultural classes.

From Spain, which country suffered so severely last year from bad crops, came reports to the effect that the outlook was excellent, and both France and Italy were expected to harvest crops at least equal to those of last year.

"It is also worthy of note," he said, "that the quality of wheat now coming from the Argentine republic does not give the same satisfaction as in previous years."

"These were the conditions prevailing in Europe when I left, but I notice that a severe hailstorm has just passed over Spain, and the optimistic reports from that country may have to be modified. On the whole, I should say that the world's wheat crop this year will be at least from 260,000,000 to 280,000,000 bushels less than last year."

He likewise observed that stocks generally of wheat and flour in the foreign markets were light, and the general opinion was that higher prices were likely to rule in the near future.

"What about the British Isles?" he was asked.

"The crops in Great Britain are a good average," said he. "Public sentiment towards Canada is exceedingly favorable, and the disposition is general to turn all possible business in this direction."

DANISH CREAMERY EXPERT VISITS ALBERTA

Calgary Albertan Dr. G. von Ellbrecht, dairy councillor to the Royal Agricultural Society of Denmark, who

is making a tour of the United States and Canada in the interest of the Danish government, is spending a few days in Calgary.

Dr. Ellbrecht has spent all months at the dairy school at the University of Wisconsin at Madison, the best known institution of its kind in America. He has also looked over the land in Manitoba and Alberta with a view to informing his government of the actual conditions existing in these provinces.

In speaking of Calgary, Dr. Ellbrecht said he was amazed to find anything so fine away out here. He spoke in a commendatory manner of the enterprise of Alberta in establishing government creameries, but thought that the government was almost too good to the farmers. He said it was an excellent thing to further the new industry and encourage it, but he thought that later, it ought to be allowed to stand alone.

Denmark is reputed to turn out the finest butter in Europe. Although it is much less than one-tenth the size of Alberta there are no less than twelve hundred creameries within its boundaries; the business is only twenty-five years old.

Dr. Ellbrecht attended the Edmonton fair also the fair at Innisfail and our own exhibition. He enjoyed the racing at Edmonton but was not impressed with the quality of the stock exhibited. He said that he saw quite as good stock at Innisfail. The cattle at the Calgary exhibition were very much superior and he was referring to the creamery breeds instead of the beef cattle in which we excel. The horses shown here excited his most enthusiastic admiration.

Dr. Ellbrecht prophesied a brilliant Danish creamery export, continued fine lands, plenty of water, and a good climate, and thought in twenty years there would be wonderful changes that we would not know ourselves, in fact.

When asked why he was looking at land, did the Government of Denmark purpose sending immigrants here, Dr. Ellbrecht was not very communicative. He finally said that they could not, of course, undertake an active propaganda in favor of immigration, but they wanted to be well informed. He said that Western Canada would have land available.

Mr. Ellbrecht was asked about the custom of Denmark in sending criminals to Canada. He explained that there were several benevolent societies in Denmark, who made a practice of applying for the pardon of convicted criminals in such cases as seemed to them deserving, on condition of their sending them out of the country. He thought there was very little danger of our receiving undesirable citizens, as in nearly all the more deserving cases were pardoned. He further said that they were not all sent to Canada by any means, but that the larger number went to the United States. He had not heard of this practice being used for Canada.

Mr. Ellbrecht said he didn't like America at first and he longed to be at home. But now that he was becoming accustomed to the freedom of our democratic institutions, he means to stay. He stated an interest in immigrating to the people as soon as he crossed the border into Canada. One thing that struck him an amazing thing in every place in the United States was described as the biggest and grandest of its kind in the world. He got very tired of that.

### IS THERE A COMBINE AMONG THE GRAIN CARRIERS?

The Montreal Witness published lately two articles dealing with discrimination in rates charged on grain carried between upper and lower Lake ports which are of interest to western Canadian farmers. The first article reads:

"The impression is growing among the grain merchants on coast as a result of certain events which have recently occurred on the Lakes, that there exists a combine among the lake vessel owners to raise the rates to be charged for the carrying of grain cargoes between Canadian ports, and between Canadian and American points."

The Canadian steamer Newminster, owned by the boatmen belonging to the Dominion marine association, was recently chartered, a local merchant stated today, "for a cargo of wheat from William to Buffalo, one and a quarter cents per bushel, and, through the Dominion association's minimum rate was then to Canadian Georgian bay ports one and a half cents per bushel and notwithstanding the fact that the trip is much shorter to the Georgian bay, which is certainly discriminating in favor of American routes, and diverted our own Canadian wheat from Montreal."

"Grain merchants do not like this condition of affairs and they question if the situation is permissible according to the law in act," he said. "Already large cargoes of Canadian wheat have been shipped from United States ports, which, it is said, should have been shipped by way of the St. Lawrence and this port is suffering in consequence."

"I understand that the owners hold occasional meetings when they decide upon an minimum fixed rate at which vessels shall be permitted to carry grain between Canadian ports, but nothing is said as to where any regulation is to be made, and who will be charged for boats carrying grain between Canadian points and Buffalo."

Fort William to Owen Sound is 44 miles.

Fort William to Midland is 465 miles.

According to the witness, a vessel of the Dominion marine association was willing to carry wheat nearly 300 miles further than to the furthest Canadian lake port for 1-1/2 less than she would carry to the nearest Canadian lake port.

The second article, which indicates an even more extraordinary discrimination, reads as follows:

"It was stated yesterday in business and shipping circles that the steamer

Advance has recently carried a cargo of heavy grain at four cents per bushel from Duluth to Montreal. At the very same time when the Advance loaded this cargo at Duluth, the Dominion Marine association's minimum tariff rate from Fort William to Montreal was six cents per bushel, and no vessel belonging to that association under their agreement could carry grain at anything less, although the Advance could easily have secured a cargo of wheat from Fort William to Montreal at five cents per bushel, or possibly a little higher. In other words the Advance carried American grain at two cents per bushel less from Duluth to Montreal, than she would carry grain from Fort William to Montreal."

This is regarded as discrimination against the Canadian grain trade, and the Manitoba farmers and the Canadian government if it is true, should take cognizance of it and prohibit American vessels to carry Canadian grain from Fort William to Montreal, and also to Canadian Georgian bay ports."

### NOTICE.

"This is to give notice that we have applied for permission to erect piers and booms in the Saskatchewan River as per plans deposited with the Minister of Public Works and the Registrar of Deeds in this district."

### City News

#### LOCAL

—Dr. Gillespie of Lindsay, Ont., has arrived in the city, and will shortly open offices here.

—Angus McRae was fined \$2 and costs for furious driving on Jasper avenue this morning.

—The board of trade meets this afternoon in the council chamber at 3:30 o'clock.

—A much needed crossing is being laid today at the junction of Howard street and Jasper avenue.

—Workmen are busy installing the boiler at the Edmonton Lumber Co.'s yards across the river.

—A freight wagon belonging to Mr. Whittaker broke down at the end of the bridge on the way to Strathcona yesterday.

—Louis Couture, formerly of Dawson, Y.T., is in the city, and will leave today for Athabasca Landing, where he will open a general store.

—Frank Mahara's Minstrels appear at the Thistle theater tomorrow evening and on Saturday evening. Seats on sale at Archibald's.

—A general meeting of the officers of the Edmonton battalion of Boy Scouts will be held in All Saint's schoolroom on Monday evening at 8 o'clock.

—Mr. Harry Todd of the Merchants Bank leaves this afternoon on a six weeks' visit to his home in Owen Sound. He will also visit Toronto, Montreal and Detroit.

—Miss McCaig of the Department of Agriculture returned last evening from the south, where she has been assisting Miss Charlton in conducting the School of Domestic Science at the fairs.

—Hon. Senator Roy has returned from Ottawa. He expressed himself as well pleased with the work of the session and with the treatment accorded the Western members at Ottawa.

—During the first ten months of the existence of the Department of Education for Alberta there has been erected one-fifth as many schools as the province originally contained. The number of schools in existence Sept. 1905, was 561. Since then 112 new schools have been established.

—Philip Wagner of the land office brought into the city yesterday a stock of wheat grown on the farm of Adam Berg at Deep Creek, 26 miles east of the city on the C.N.R. The sack is five feet long with a head eight inches long. Mr. Berg has 35 acres of such wheat. Mr. Wagner says that the fields along the C.N.R. are full of wheat such as Mr. Berg has grown, and that the crop is already beginning to turn color.

—The Calgary Herald in a recent issue states that the Directors of the Edmonton fair prohibited Mr. Kinnon of Pense from exhibiting his cattle in the judging ring although entries had been received in time. The facts of the case are that Mr. Kinnon's car was delayed in transit 24 hours and was according to the rules of the association excluded from showing. The directors waived this rule and were anxious that Mr. Kinnon should be allowed to show his stock in the ring. To this proposition all the stockmen agreed with the exception of Mr. Bennett of Calgary, who declared no matter what action the directors might take he would enter a protest against Mr. Kinnon's exhibit as not having complied with the rules of the association.

#### CHEAP RATES FOR HARVESTERS

(Special to the Bulletin)

London, July 18.—To meet the great shortage of harvest hands in the west, the C.P.R. announces a rate of 6 lbs from Liverpool to destination between Aug. 1st and 23rd. After working a month as harvesters the holders of tickets are to be entitled to return for the same not later than Nov. 3rd.

#### VALUABLE DIAMONDS STOLEN

(Special to the Bulletin)

New York, July 18.—The police here have a story that embodies the loss of gems the description of which reads like the Arabian Nights tales. Scores of diamonds, many as large as pigeon's eggs, and valued at over \$50,000 are said to have been taken from a society woman.

#### SOCIAL AND PERSONAL

Mayor May is still in Ottawa, but is expected home in a few days.

William Ewing, of Lansing, Michigan, is a guest at the Alberta.

Hon. C. W. Cross returned from Ottawa last night and was in his office this morning.

Mrs. Hockley and Mrs. Jackson leave tomorrow for Winnipeg.

A. T. Robson of Cranbrook, is registered at the Alberta.

Dr. and Mrs. Reid leave tomorrow afternoon for Brandon for a few weeks.

Mr. Lucien Dubuc leaves tomorrow morning for Winnipeg on a visit to his father, Chief Justice Dubuc.

Mr. Little, of Toronto, who has been on an extensive trip throughout the West spent yesterday in the city.

Mr. Gould of the Department of Education returned yesterday from Banff.

Miss McLeod leaves this week for her home in Ponoka, where she will spend a short holiday.

Miss Shielotto left this morning for her home in Lacombe, to spend her holidays.

Miss Jennie MacArthur, who has been visiting with Mrs. Blaney, Naramata street, returned this afternoon to her home in Woodstock, Ont.

Miss Maud V. McConagh and Rev. Alister A. Rideout were married last evening at the home of the bride's parents, Donald street. Mr. and Mrs. Rideout will spend a few days at Banff before returning home to Fredericton, N.B.

Mrs. Jas. A. McDonald, wife of the managing editor of the Toronto Globe, and her daughter, Jean, arrived last week to spend a few weeks with her sister, Mrs. (Dr.) McGibbon. Mr. McDonald will join his wife and daughter here early in August, before they proceed on a tour of the Pacific Coast.

#### DEPARTMENT OF PUBLIC WORKS

#### Tenders For The Sub- Structure

Of Traffic Bridge at Battleford.

SEALED TENDERS addressed to The Deputy Commissioner of Public Works, Regina, Sask., and endorsed "Tenders for Battleford Bridge" will be received up to 4:30 p.m. Monday, Aug. 13th, 1906, for the supply of all materials and for the erection of eight (8) concrete piers and two (2) abutments for a traffic bridge over the Saskatchewan River at Battleford.

About 5,000 cubic yards of concrete will be required in the work.

A certified cheque for the sum of \$1,000 will accompany each tender. The cheque will be retained until the necessary contract and bond are executed and the work commenced.

The cheques of unsuccessful bidders will be returned after the contract is signed.

The right is reserved to reject any tenders which are deemed defective.

Plans, specifications and all information may be obtained on application to the undersigned.

Dated at Regina, Sask., June 29, 1906.

F. J. ROBINSON,

Deputy Commissioner of Public Works.
